

PLEASE DO NOT WEAKEN THE NO CALL LIST!

It's important to continue the calm this list has brought to our home.

If the credit card companies and banks can call people they've delt with 18 months ago, I'll be required to remember companies I may (or maynot) have delt with a year and a half ago. Those CC companies are betting that I won't be able to recall with certainty and that I'll be reluctant to report them for harrassing my family. I urge you to make this list stronger by turning it into a CALL list where customers sign up if they WANT solicitations.

At the very least, make the duration longer than 2 years.

Thank you.
